FOR IMMEDIATE RELEASE

Multiple Visions gathers 12 resident artists from Arts Warehouse in Delray Beach for exhibition at the Boca Raton Innovation Center (BRIC) Gallery. Part of *Art on BRiC Walls*.

Opening Reception February, 13th, 2024 6 - 8pm
Boca Raton Innovation Center (BRiC)
5000 T-Rex Ave
Boca Raton, FL 33431
Gallery located next to Carmela Coffee Bar

The exhibition invites viewers at BRIC to explore the artists' distinct viewpoints and disciplines. They are united in their desire to share their stories, dreams, imagination, and passions through their chosen artistic medium varying from clay, mixed media, textiles, photography, and paint.

The competitive Resident Artist Program at Arts Warehouse is made up of 15 private artist studios, supporting artists as small businesses. The studios offer the resident artists the opportunity to interact on a daily basis and develop their individual expression through their practice while working, learning and sharing with one another as a collective. The exhibition at the BRIC is an opportunity for an expanded public to experience this unique group of Resident Artists in the satellite exhibition outside of Arts Warehouse.

"Being a part of Arts Warehouse has been a transformative experience. It has given me a space to collaborate and grow amongst a diverse group of artists where we are fostering a creative community that I'm grateful for." says Sarah E. Huang, Resident Artist in her third year at Arts Warehouse.

Multiple Visions celebrates each artist's unique perspectives, extending their reach beyond their studio spaces, into the vibrant South Florida arts community. The high quality of work exhibited is a testament to the level of the resident artists at Arts Warehouse. On the heels of a successful Resident Artist exhibition at Arts Warehouse in late 2023, the artists are expanding their community and audience through an exhibition at the BRIC.

"We welcome expanding community participation at the Arts Warehouse through studio visits, viewing our changing exhibitions, workshops and personal art consulting. We have lots of experience helping people find that perfect work of art to enhance their home and their life. " says Bonnie Levinson, Resident artist and curator of the exhibition at the BRIC

The exhibition opens Tuesday, February 13th at 6pm and will extend for 6 months. Throughout the run of the exhibition there will be supplemental in-person public programming inspired by the exhibition at BRIC. Programs may include guest presenters on such topics as the role of experimentation and collaboration in making art, the power of creativity in transforming our lives, the role of an arts residency for the development of your art practice. Virtual programming such as artist talk videos will be released on Arts Warehouse's social media platforms. Exact dates of in-person programs will be announced.
